

**All Saints**

The children loved the hands-on activities and could recall lots of facts about the machines and industries in Halifax. They seemed keen to take their families and act as a tour guide with all the things they had learnt. Quote's ' It was really fun and exciting' 'It was really interactive' 'It made history really interesting' 'Amazing' 'It was really interesting to see all the different machines'

Home Educators Group  
They absolutely loved it. One 5 year old said "I loved that day. The water thingy was great".

A 6 year old said "I love the fly wheel but flies don't sit on it".  
A 7 year loved the braiding wheel and couldn't wait to finish it. (I have a few more so I'll email them across)  
Freya 8 said she loved the sweet wrapper machine because her grandma used to work on it and she love Andy's talk about the governor and how it can either have 2 or 3 balls and stops it going to fast. She sent me a special message to let me know. Which was so sweet.

Lots loved seeing all the machines working and having a go and loved the printing press at the end.  
Darcey and Felix loved the braiding wheel.  
Everyone has come back saying they enjoyed the braiding wheel and the experiment at

**Castle Hill Primary 04/12/2019**

e-mail received after the visit: We had such a fantastic time on Wednesday. The children were engrossed, it fitted perfectly with our learning and I know so many children are now planning on going back to revisit. Thank you to you and all your volunteers

**Christ Church Pellon**

One child couldn't believe how much Halifax has contributed to jobs in the world. One child said hearing the machines work downstairs was so exciting! Another said that she was going to bring her mum and brother next weekend

Withinfields Primary School - Year 2  
Really fun. I liked dressing up. I really want to go again. I liked the chocolate-wrapping machine. I liked going in the mining tunnel.

Heptonstall Primary 4/07/2019  
The children really enjoyed the day. Although they had a thoroughly good day, they left the museum in a calm and relaxed mood, which was lovely. They particularly enjoyed the mining section, and the challenge of the getting through the mine whilst being timed, and of course, being given the opportunity to dress up! It is really difficult to pick out anything in particular, they day was packed with so many interesting

Sacred Heart Primary Y5 & Y6 23/01/2020  
They loved it!##### told me she'd never been before but would love to go back. Tom - I was mesmerised the toffee machine. ##### I was so impressed by how fast me and Miss Watson were were on the doffing machine. This was my favourite part!

Mount Pellon Primary Y5 8/1/20  
They really loved it. Some said they'd love to visit again to see everything in action on the weekend.  
One boy said that it was really cool to learn about all the machines  
LOved the Museum - Children enjoyed the visit  
element of the Printing  
Enjoyed the hands on
