

# Digital Twin User Guide

Welcome to the digital twin of the museum, created by Vision Digital Culture. This short guide will help you explore the space remotely — anytime, anywhere — especially when an in-person visit is difficult or not an option.

You can navigate using a mouse, keyboard, or touchscreen. The **Guide Menu** and multimedia **labels** let you jump to key areas or explore specific exhibits. If available, you can also follow a preset **route** for a guided experience.

Look out for interactive **labels** throughout the tour — tap or click to view related text, images, videos, or links about the highlighted objects.

For the **best experience**, we recommend using **full screen mode** on a computer. You can also use a VR headset for an immersive visit.

Enjoy your 3D virtual tour — we hope you find it inspiring and engaging!

# Navigation

## Navigating with a Mouse

Click and drag to look around.

Click white rings to move through the space.

Click on areas to jump to the nearest viewpoint.

Scroll to zoom in and out.

Click the **Guide** to open key areas, or play them as a slideshow.

## Navigating with a Keyboard

Arrow keys:

↑ move **forward**

← rotate **left**

↓ move **backward**

→ rotate **right**

WASD keys:

**W** move **forward**    **A** rotate **left**

**S** move **backward**    **D** rotate **right**

# Icon Guide for Smartphones

- 0 Search - Search content within the digital twin.
- 1 Info - Access the **venue introduction**, Google Maps location, and other available content.
- 2 Share - Copy the link to **share**. Select "Share current view" to let others start from your position.
- 3 3D Interaction - Click to interact with the venue's **3D model**.
- 4 Floating Button - Click to open the **contact form**. Tap the × in the top corner to close.
- 5 Popup Poster - Click to open space info. Tap the × at the bottom to close.
- 6 Music - Turn **background music** on/off (if available).
- 7 Guide - Explore key areas in a visual list. Hit "Play" to autoplay, or "Pause" to stop anytime.
- 8 Preset Routes - Follow recommended **tour paths** if available. Click "Play" to auto-navigate.
- 9 Tour Switch - **Switch** between multiple connected digital **spaces** if available
- 0 Hidden Icons - **Swipe up** on the bottom bar after closing the popup to access the hidden icons:
  - 0 Labels - Browse all interactive labels by category and jump to their location.
  - 0 Floor Selector - Switch between floors if available.
  - 0 Tools - Access the measurement tool, or activate VR mode.
